

Product Requirements Document (PRD)

The Panda Nomad

Version: 1.0

Document Owner: Subham Panda

Product Type: Digital Publication, Knowledge Platform & Founder Community

1. Vision

The Panda Nomad is not a traditional blog.

It is a modern digital publication where ideas, experiences, stories, research, entrepreneurship, innovation, philosophy, technology, and life intersect.

The platform will eventually evolve into a global knowledge ecosystem consisting of articles, newsletters, podcasts, startup mentorship, founder stories, educational resources, and a thriving community.

The mission is simple:

Explore Ideas. Build Knowledge. Inspire Action.

2. Mission Statement

To build one of the world's most respected independent knowledge platforms where readers come not only to consume content but also to learn, think, build, collaborate, and grow.

38. Product Philosophy

The Panda Nomad is not built to maximize clicks.

It is built to maximize thinking.

Every article should leave the reader with a new idea, a practical lesson, or a different perspective. Every feature should encourage learning, meaningful conversations, and long-term intellectual growth.

The ultimate vision is to transform The Panda Nomad from a publication into a trusted global ecosystem where people come to read, think, build, connect, and create meaningful impact.
